HE LOOKS INTO THE EYE.

M. E. C. HUGHAN, the well known Optician and Jeweller, of William St., Lindsay, has been known to be in his store, and it is so complete, an electric dark room, in which to test eyes and sight testing. This is the new method as used by the great specialists in Toronto and Montreal.

By the use of the wonderful light instrument known as the Refractoscope, the eye responds to light, the curtain of nature is drawn, and the eye is seen as it really is.

Mr. Hughan has engaged as instructor one of the best known Opticians in Canada—Dr. Wm. E. Macdonald, who has spent years in research and practice. This great specialist is now at Mr. Hughan's store and is doing a wonderful work for the public. If you could see how easily he straightens cross eyes in children you would not wonder that his services are so much sought after.

If you could but know the infinite care which he takes of each eye you would realize why Mr. Hughan has engaged him.

Free examination of the eyes are conducted daily by this specialist, and persons from all parts of the country are taking advantage of this most generous offer.

Men of 60 years are made to see as easily as when boys. Women who have suffered with headaches for years are made to see as clearly as when the general day—and now Mr. Hughan says:

TO THE PEOPLE OF LINDSAY AND SURROUNDING COUNTRY:

I have been my intention for some time to greatly enlarge my Optical Department, also to take instruction in the new method test. When I engaged

the services of Dr. Montgomery I believed him to be one of the best men in Canada for the purpose, and since he has been with me he has more than confirmed that belief. His skill is truly marvellous, and I say now to all this country, you may never have another chance to consult an expert about your eyes and sight.

Come now I am paying for your examination, and if you wear glasses you must pay for them. Do not delay—this is the one opportunity that knocks at your door, do not think lightly of this important matter, but come while Dr. Montgomery is here you will be cordially received and well repaid.

Yours to serve,

C. HUGHAN.

Acts Like Oxygen.
Liquezone is not made by combining drugs, nor is it ever absorbed in it. Its action is derived solely from a highly oxygenated gas which is a growing organism. Liquezone is a gas, for more than 20 years, the most important subject of scientific and chemical research.

It is a gas, it is a liquid that does what a gas would do. It is a gas that is absorbed in the blood and it is a gas that is absorbed in the blood. It is a gas that is absorbed in the blood and it is a gas that is absorbed in the blood.

WE HAVEN'T SAID A WORD

For some time on the subject of TEAS or COFFEES, but it's not because we lack inspiration or the goods to talk about; in fact, we feel that we have something superior to both lines to offer to those who can appreciate the difference between poor and good quality.

Wholesale men know that we have made a specialty of Teas and Coffees for a quarter of a century or more, and when they have something choice they send us a quantity without saying "By your leave." We have just received a shipment in that way, and can offer connoisseurs something choice at reasonable prices.

respond, if the duty were thirty, five or thirty per cent, the man with an unimpaired farm would be taxed, possibly, a hundred and fifty to a hundred and seventy dollars. Poor farmer! To what for? Almost nothing in return, he is to be taxed.

WINTER SHOES

WOMEN'S

In announcing our annual February Sacrifice Sale of Winter Footwear, our inducements are UNPRECEDENTED VALUES.

Dependable.
The lines on sale are reliable, as they have been taken from our regular stock and include almost all kinds of Men's, Women's and Children's Footwear.

Zero prices.
Our regular prices were uniformly low but we have sacrificed greatly to make the sale a complete success.

Seeing is believing.
A glance at the bargains will be more convincing to you than any statement we can say for ourselves.

PETERBORG'S ASSESSORS.

COUNCIL MAKES A STEP TOWARDS AN ASSESSMENT COMMISSION.

Two assessors instead of Four Appointed and Duties Increased.
For a number of years past the Corporation of Peterborough has been employing an assessor for each ward. This system has been found to be unsatisfactory. It was felt that the assessor was not a person of sufficient standing, and that the work was being done in a haphazard manner. It was decided to appoint a commission to inquire into the matter. The commission has now reported, and has recommended that the number of assessors be increased to four, and that the duties be increased. The council has accepted the recommendation, and has appointed two assessors to take the place of the two who have been serving. The duties of the assessors will be increased, and they will be required to make a more thorough examination of the property in each ward. This is a step towards a more efficient system of assessment, and it is hoped that it will result in a more equitable distribution of the tax burden.
